## PREFACE

One of the important publications of the Census of India 1961 is the District Census Handbook for each district. The District Census Handbooks were first published in the 1951 Census. In the District Census Handbook of the 1961 Census it was originally envisaged to include detailed administrative statistics, Census Tables and Village Directory, along with certain maps. Due to circumstances beyond the control of this organisation, the District Census Handbooks of Bangalore, Dharwar and Mysore Districts were delayed. In order to ensure that the basic demographic data is available, it was decided to publish the handbooks of these three districts in a slightly modified form. Accordingly, the handbooks of these three districts contain only Table SCT-I (Part A and Part B) relating to Scheduled Castes and Scheduled Tribes and the Village Directory. The latter furnishes information talukwise of the villages with population details. These handbooks have been compiled by the Census Organisation under the general instructions of the Registrar General and are printed and published by the State Government.

## EXPLANATORY NOTE

The information collected at the time of house-listing and enumeration for the 1961 Census, has been extensively analysed and the data has been reduced to nine series of tables as follows :

- (i) A Series .. General Population tables
- (ii) B (i) Series .. General Economic tables
- (iii) B (ii) Series .. Household Economic tables
- (iv) C Series .. Social and Cultural tables
- (v) D Series .. Migration tables
- (vi) E Series .. Housing and Establishment tables.
- (vii) S.C.T. Series .. Special tables for the Scheduled Castes and Scheduled Tribes.
- (viii) S.C. Series .. Special tables for the Scheduled Castes only.
- (ix) S.T. Series .. Special tables for the Scheduled Tribes only.

As mentioned in the preface, this volume contains only tables relating to S.C.T. I and Village Directory. The material presented here is as on 1st March 1961, which was the reference date for the 1961 Census.

It may be of some interest to briefly indicate here the concepts and definitions of some of the terms used during the Census Operations.

For Census purposes :

(i) A 'Census House' is defined to be a structure or a part of a structure inhabited or vacant, or used for non-residential purposes such as place of business, workshop, school, etc., having a separate entrance.

(ii) A 'Census Household' is defined to be a group of persons who commonly live together in the same Census house and who would take their meals from a common kitchen unless exigencies of work prevented any of them from doing so.

(iii) 'Houseless Persons', as the name itself indicates are those persons who at the time of enumeration were not found residing in houses. Persons like pavement dwellers, beggars without any house to live in were grouped under the category of Houseless Persons.

(iv) 'Institutional Population' : Hospitals, Boarding Homes, Hostels, Jails and such other agencies which provide boarding, lodging and similar facilities have been termed "Institutions". All people who were enumerated in these institutions are brought under Institutional Population.

(v) 'Literacy and Education' : All persons who were able to read and understand, any simple letter in any language either in print or in manuscript and to write simple letter are considered 'Literate' for census purposes. If in addition to being able to read and write, any person has passed an examination or examinations as proof of an educational level attained, the highest examination passed was recorded in the enumeration slip.

(vi) "Non-workers" are persons who do not work in the sense explained in para 5 (xii) *infra* and include.

- (a) a full time student or child attending school who does no other work, such as making articles at home for sale, nor even helps part-time in his own family cultivation, industry, trade or business ;
- (b) a person solely engaged in unpaid home duties like housewives, etc. ;
- (c) a dependant including an infant or child not attending school, a person permanently disabled from work because of illness or old age ;
- (d) a retired person who is not employed again, rentier person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work or who does no other work ;
- (e) a beggar, vagrant or independent woman without indication of source of income and others of unspecified source of existence ;
- (f) a convict in jail (an undertrial prisoner has been shown as a worker if he used to work before he was apprehended) or an inmate of a penal, mental or charitable institution ;
- (g) a person who was not employed before but was seeking employment for the first time ;
- (h) a person who was employed before but was out of employment at the time of enumeration and was then seeking employment.

(vii) "Occupied Residential House" is a dwelling house and also includes a house used partly as a dwelling and partly for some other purpose like shop, workshop, factory, etc., but does not include a vacant residential house where no person was found to be residing at the time of the Census.

(viii) "Scheduled Castes" are such castes, races or tribes or parts of groups within such castes, races or tribes as are declared to be Scheduled Castes, by the President's orders issued under Article 341 of the Constitution of India.

(ix) "Scheduled Tribes" are such tribes or tribal communities or parts of groups within such tribes or tribal communities as are declared to be Scheduled Tribes by the President's orders issued under Article 342 of the Constitution of India.

(x) "Town or an 'Urban Area'". For the first time in the 1961 Census, uniform and somewhat rigid tests were sought to be applied throughout the country for an area to be recognised as an urban unit. The criteria prescribed are :

(A) All Municipalities, Cantonments, notified areas and other places enjoying recognised local administration like Civil Lines have been treated automatically as towns.

(B) For other areas, the eligibility yardsticks applied are :

- (a) a population of not less than 5,000.
- (b) a density of not less than 1,000 persons per square mile, and
- (c) at least three fourths of the adult male population should be employed in pursuits other than agriculture.

The Superintendents of Census Operations were empowered to treat as towns any other places, which while not fulfilling any of the above conditions, possessed pronounced urban characteristics and amenities.

(xi) A "Town Group" covers an area which actually forms one demographic unit though it may be administered by more than one civic body and has been treated as a single unit for presenting the census statistics on account of demographic, economic, industrial or geographical unity.

(xii) "Worker". A person who is gainfully employed in any economic or social activity is taken as a worker. But he has to satisfy a minimum criterion if he is to be called a "worker" for Census purposes. In the case of regular employment in any trade, profession, service, business or commerce, the basis of work will be satisfied if the person was employed during any of the fifteen days preceding the person's enumeration. However, a person who is working, but was absent from the work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes was treated as "worker". The basis of work in the seasonal occupations such as cultivation, livestock, dairying, Household Industry, etc., is that the person should have had some regular work of more than an hour a day, throughout the greater part of the working season. "Work" includes in either case, not only actual work but effective supervision and direction of work. Persons under training as apprentices with or without stipend or wages have been regarded as working. A public or social worker who is actively engaged in public service activity or a political worker who is also actively engaged in furthering the political activity of his party has been regarded as working.

(xiii) A "Village" has been defined as the area included within the jurisdiction of a revenue village and as such is inclusive of even scattered hamlets and isolated home-steads coming within the boundaries of a revenue village.

In the Village Directory are incorporated the Primary Census Abstract data. The Primary Census Abstract provides basic information relating to the Census and covers area of the village, occupied houses, households, total population sexwise, Scheduled Castes, Scheduled Tribes, Literate and educated population, total Workers and Non-workers. The Workers are classified in the following nine categories of economic activity :

- I. As Cultivator.
- II. As Agricultural Labourer.
- III. In Mining, Quarrying, Livestock, Forestry Fishing, Hunting, Plantations, Orchards and allied activities.
- IV. At Household Industry.
- V. In manufacturing other than Household Industry.
- VI. In Construction.
- VII. In Trade and Commerce.
- VIII. In Transport, Storage and Communications.
- IX. In Other Services.

*Category I*

"A Cultivator" is a person who is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government or (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share.

*Category II*

"An Agricultural Labourer" is a person who works in another person's land only as a labourer without exercising any supervision or direction in cultivation.

*Category III*

Workers engaged in mining, quarrying, livestock, forestry, fishing, hunting, plantations, orchards and allied activities.

*Category IV*

A "Household Industry" is defined as an industry conducted by the Head of the Household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory.

Household Industries relate to production, processing, servicing, repairing or making and selling of goods. They do not cover such professions as Pleader, Doctor, Barber, Washerman or Astrologer, etc. All persons engaged in Household Industries have been brought under this category.

*Category V*

Workers in "manufacturing other than Household Industry" are persons who are working as Employers, Employees, single worker or family workers in activities connected with the production, processing, servicing or

repairing of goods in factories, workshops or other similar establishments, which do not qualify to be included under Household Industries as defined in the previous paragraph have been brought under this category.

*Category VI*

Workers in Construction : Persons who are engaged in construction, maintenance, upkeep, repairs and similar occupations of Buildings, Roads, Bridges, Dams, Canals and Construction of Electrical, Water supply and sanitary installations, etc., are brought under this category.

*Category VII*

Workers in Trade and Commerce : Persons engaged in wholesale or retail trade in goods, or dealing with Insurance, Stocks, Shares or employed in Banking and Financial Institutions have been classified as workers in trade and commerce.

*Category VIII*

Workers in Transport, Storage and Communication activities : Persons employed in Railway, Road Transport, Post and Telegraph and other Agencies have been brought under this category.

*Category IX*

Workers in "Other Services." This is the last category of workers which comprises employees of Central and State Governments, Local bodies, Quasi-Governmental bodies and those engaged in Educational and Scientific Services, Medical and Health Services, Religious and Welfare Services, Legal Services, Business Services, Community Services and Trade and Labour associations, Recreation services, Personal services, and Other miscellaneous activities not covered by any of the categories listed above.

# **VILLAGE DIRECTORY**

## VILLAGE DIRECTORY

### EXPLANATORY NOTE

The Village Directory prepared Talukwise, for the whole District besides giving the population figures recorded in the 1961 Census for each village and place treated as a town, incorporates much other useful information like the area, number of occupied houses, number of households, break up of the population by sex, scheduled castes, scheduled tribes, literacy, workers in the 9 categories, Non-workers, etc.

2. Expressions like 'Village', 'Town', 'Literate', 'Scheduled Caste', 'Scheduled Tribe', 'Worker', and 'Non-worker', etc., have been defined and a detailed description of the industrial categories, given in the explanatory note to the census tables.

3. The figures for towns are presented below the rural areas of the Taluk concerned, the information being given blockwise. The blocks are grouped by Municipal Wards or Divisions wherever possible.

4. The villages are presented in the order in which location code numbers were assigned to them for the 1961 Census. However, to facilitate easy location of the villages, an alphabetically arranged list of villages giving the location code number is given before the Village Directory for each Taluk. Total, Rural, Urban and village-wise list of industrial establishments for each taluk, is also presented with the abstract for the District at the end of this Section. Figures given in the brackets indicate the number of establishments under the minor group, the code number of which precedes the brackets.

5. In the Taluk map, the villages are denoted by their 1961 Census location code numbers. The map is also divided into convenient squares such as A—1, B—1, A—2, B—2, etc., and the location of any village can be traced in the map, by reference to the alphabetical index to the villages, wherein its location code number and the particular square in which it lies in the map have also been indicated.

6. Information regarding the amenities in each village and the area of each village has been obtained from the Revenue authorities.
